KYC stuck for weeks

Submitted my KYC documents 3 weeks ago and still no update. No response from support either. Very frustrating.

Play Store

Best investment app

Groww has made investing so simple. SIP setup took less than 2 minutes. Highly recommend.

Play Store

App keeps crashing

Every time I open the app it crashes within 30 seconds. Reinstalled twice, same issue. Pixel 7.

App Store

Smooth SIP experience

Set up 3 SIPs in one go. Interface is clean, fund selection is easy. Love the returns tracker.

Play Store

Customer support useless

Raised a ticket 10 days ago. Got one automated reply and nothing since. Issue still unresolved.

Play Store

Good app minor bugs

Overall great experience. Sometimes the portfolio page takes too long to load but otherwise solid.

Play Store

Money deducted no investment

SIP amount got deducted from my bank but the investment never showed up. Very scary.

5/5

App Store

Great for beginners

As someone new to mutual funds, Groww made everything easy to understand. Love the fund comparison feature.

2/5

App Store

Statement download broken

The account statement PDF never loads. Tried 5 times over 2 days. Need this urgently for tax filing.

Key Themes (5)

KYC Issues

negative

Users are facing problems with the KYC verification process, including delays and rejections without clear reasons.

8 reviews

Sample Reviews:

"KYC stuck for weeks"

"KYC rejected no reason"

App Performance

negative

Users are experiencing issues with the app's performance, including crashes, freezes, and slow loading times.

9 reviews

Sample Reviews:

"App keeps crashing"

"App freezes on portfolio page"

Investment Glitches

negative

Users are encountering problems with their investments, such as failed SIPs, wrong NAVs, and uninvested amounts.

7 reviews

Sample Reviews:

"SIP deducted not invested"

"Wrong NAV applied"

Support Experience

negative

Users are expressing dissatisfaction with the customer support, citing slow response times, unhelpful responses, and unresolved issues.

8 reviews

Sample Reviews:

"Customer support useless"
"Support never responds"

User Experience

positive

Users are praising the app's ease of use, clean interface, and helpful features, such as SIP tracking and portfolio management.

10 reviews

Sample Reviews:

"Best investment app"

"SIP tracker is great"

Weekly Pulse

Top Themes

1

User Experience

positive

Users are praising the app's ease of use and features.

10 reviews

"Best investment app"

2

App Performance

negative

Users are experiencing issues with the app's performance.

9 reviews

"App keeps crashing"

3

KYC Issues

negative

Users are facing problems with the KYC verification process.

8 reviews

"KYC stuck for weeks"

Action Ideas

- 1 Add inline KYC status tracker with rejection reasons
- 2 Implement SIP retry mechanism for failed investments
- 3 Optimize app performance by reducing API calls
